

Streamlined Dental Solutions

We offer a portfolio of dental solutions that reduce and sometimes eliminate billing through the IME / Applied Income Process.

We're dedicated to optimizing our services by forming alliances with Medicare Advantage Plans to streamline dental billing for our nursing homes. This strategic collaboration eliminates the nursing home from the responsibility of paying for dental services through the resident's applied income.

Seamless Dental Access

This ensures seamless access to dental care for your residents, without any additional out-of-pocket expenses.
